

Iroquois Middle School
Database Descriptions and Passwords

Why should I use a database? Unlike Internet websites, databases provide information that have usually gone through some type of review or screening process. This makes databases a great place to quickly find quality information.

Databases are a great place to find:

- | | |
|-----------------------|--------------------------|
| Newspaper articles | Biographical information |
| Magazine articles | Statistical information |
| Encyclopedia articles | Historical maps |

Go to the Iroquois Library Media Center website to access these databases:

<http://fc.niskyschools.org/~smwolfort/databases.htm>

DATABASE	USERNAME/ID	PASSWORD	DESCRIPTION
